The birth preparation course for women/couples from all over the world

This course is for women far from their home countries who are about to become mothers.

A midwife and a female intercultural interpreter will answer your questions and give you information about pregnancy, childbirth, breastfeeding and your time at home with your baby. They will show you physical exercises that can help you relax and prepare for giving birth.

You will have the chance to talk to other women about your experiences and expectations relating to this special time. You can also exchange information and views about cultural practices with other women. Future fathers/companions are welcome to join some of the meetings.

The course meets seven times. Ideally, you would attend the course between the 5th and 9th month of your pregnancy.
